Plain Paper Facsimile

FAX-717

Not only a sophisticated fax machine with advanced business functions, but it comes with an integral telephone with a speaker for on-hook dialing and background music when on hold. Perfect in the home where space is at a premium and both a fax and a telephone facility are required.

The technology inside this compact standalone fax machine is specified and built to a totally professional standard. As a result of this, everything you send and receive is of the highest quality and printed out on A4 plain paper

With Brother's FAX-717, it's both quick and easy to search through and select any of the advanced business functions - including the ability to automatically redial should a number be busy.

The FAX-717, with its 9,600bps modem is capable of transmitting a fax in approximately 15 seconds. And with its 512KB memory, it's also able to store up to 25 pages of incoming faxes.*

The features offered by the FAX-717 means less time will be wasted at the fax machine. You can store up to 20 pages in the fax memory for sending and it has 30 sheet paper capacity. Further efficiency gains can be made using the 4 one-touch or 60 speed dial pre-programmable locations.

To ensure the ultimate in versatility and user- friendliness, the FAX-717 is able to forward received and stored faxes to another fax machine.

It also offers a number of useful copy functions such as the ability to automatically sort multiple copies, as well as the option to reduce or enlarge documents from 50% to 150%.

A professional quality fax machine with the added benefit of an integral telephone handset.
