

# ELECTRONIC CHECKWRITER

## *NIBO Electronic Checkwriter comes with eight remarkable features:*

1. Attractively designed, it is compact and easy to use.
2. The large 10-digit LCD display makes reading light and easy, and therefore ensures data-entry accuracy.
3. Whole data can be deleted by the touch of the Clear (C) key.
4. Same amounts can be repeated with a touch of a button.
5. Customised currency options are available besides the standard S\$, US\$ and RM (NB-900).
6. A special lettering structure is built to penetrate the check and help prevent deceit.
7. A fully adjustable printing feeder gives you full printing flexibility.
8. A uniquely built clamp fixes the check firmly for precise printing.
